

## About Us

Founded in 1835, we are a not-for-profit organization dedicated to preserving and strengthening families through professional help that families can afford.

We offer professional counseling, education, and support that enables individuals to become better parents, spouses, caregivers, and money managers; and allows older and disabled adults to continue to live independently in their own homes.

We tackle some of the toughest family troubles in our community that often lead to family breakdown: domestic violence, child abuse, exploitation and abandonment of the elderly, financial instability, and chemical dependency. Whether it is a rough spot in a marriage, the grip of an addiction, the challenges of raising children or caring for aging parents, our professional and compassionate staff at Family Service is here to help.
